\*Rounded to the nearest 10; cases exclude basal cell and squamous cell skin cancer and in situ carcinoma except urinary bladder. About 48,530 cases of female breast ductal carcinoma in situ and 95,710 cases of melanoma in situ will be diagnosed in 2020. †Deaths for colon and rectal cancers are combined because a large number of deaths from rectal cancer are misclassified as colon. ‡More deaths than cases may reflect lack of specificity in recording underlying cause of death on death certificates and/or an undercount in the case estimate.

**Source:** Estimated new cases are based on 2002-2016 incidence data reported by the North American Association of Central Cancer Registries (NAACCR). Estimated deaths are based on 2003-2017 US mortality data, National Center for Health Statistics, Centers for Disease Control and Prevention.
